Google Earth Search 2 – Table Format

1) Find the following 12 locations and place each picture, description, and location in a table.

2) The table should look like the one on the LMS Grade 7 Tech Ed Website should have a complex border and a watermark.

3) The top two rows should each be merged and the third row should have column headings like the template on website.

4) The top row should contain your name, the date, and the class color. The second row should contain GOOGLE EARTH SEARCH #2

5) The page should have page border art.

6) See the content rubric for more information please.
