Albert Einstein

Born in Germany on March 14, 1879

Died in USA on April 18, 1955

Albert Einstein was a very famous physicist and Nobel Peace Prize Winner. He escaped Hitler's Germany just before the outbreak of World War II and fled to the USA. He came up with the theory of relativity $E=MC^2$. This theory helped the USA develop the atom bomb which ended and won World War II in 1945.

Interesting Fact: Albert Einstein struggled in school.
